

What Fragrances Do College Students Prefer?

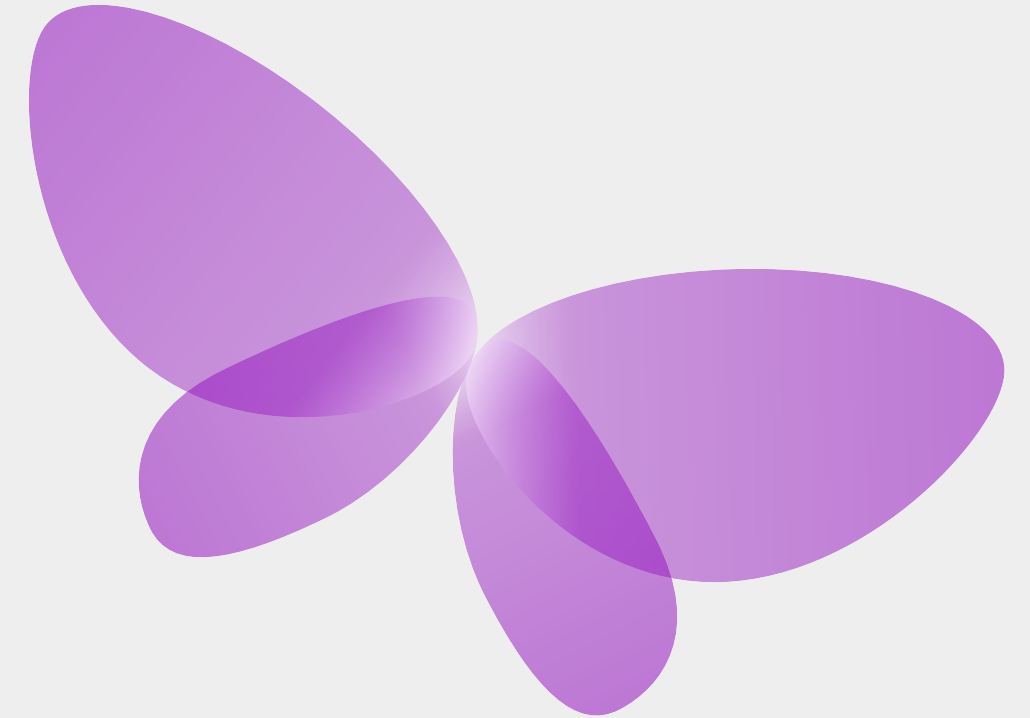

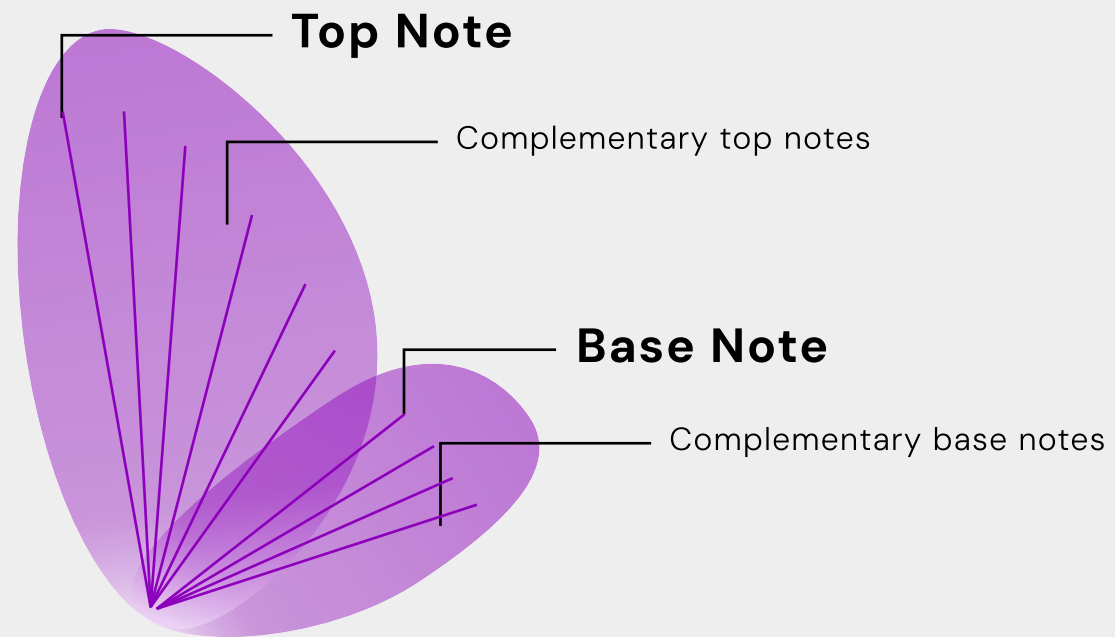

Curiosity Into Data Visualization

We all have our favorite perfume that we like to wear, but can we all have similar preferences for perfume? is there any trend or group preferences? what can be possible patterns in that?

With this simple question in mind I started my diary study..... and it was more complicated than I thought it was.

Anatomy Of Perfume

Notes de Perfume

So when you sniff a perfume its just not one type of smell it engineered to have top note and base note and complementary notes based on your skin temp, humidity, body temperature and surrounding temperature

Dairy Study

Data entry: note, complementary note, texture, tertiary note

Insights

This shows that preference of perfume is a group behavior more and is influenced by people around you, only few have their own personal perfume but most bought perfume has the most encountered note
