About Myself

Information designer with a multidisciplinary background spanning data visualization, UI/UX design, and UI development. Driven by research and data, I focus on translating complex information into clear, effective, and user-centered solutions.

Work Experience

Cosmino - UX Design Intern

APRIL 2026 - JUNE 2026 - PUNE, MAHARASTRA

- Redesigned 20+ website pages to improve information hierarchy, content discoverability, and overall user experience.
- Designed 30+ mobile app screens for upcoming features by translating user research into intuitive interaction flows.
- Conducted 15+ user interviews and synthesized findings into personas, journey maps, and feature recommendations.
- Defined 4 primary user segments and mapped end-to-end user journeys to support product strategy and roadmap planning.
- Developed the Business Model Canvas (BMC) and collaborated with 3 cross-functional teams to align user needs with business and marketing goals.

Diginovators - UI/UX Design Intern

MAY 2024 - JUNE 2024 - PUNE, MAHARASTRA

- Designed responsive web interfaces for 2 client projects in collaboration with project managers and senior designers.
- Created 15+ wireframes and high-fidelity prototypes throughout the design thinking process.
- Presented design concepts during review sessions and incorporated stakeholder feedback across 4+ design iterations.
- Collaborated with cross-functional teams to deliver project milestones within the internship timeline.

Red Nucleus - UI Developer

MAY 2022 - APRIL 2024 - PUNE, MAHARASTRA

- Developed and maintained 25+ responsive e-learning modules for global pharmaceutical clients using HTML, CSS, and JavaScript.
- Implemented UI designs that ensured consistency across layouts, typography, and reusable interface components.
- Performed QA testing across desktop, mobile, and tablet devices, identifying and resolving 100+ UI and responsiveness issues.
- Collaborated with designers, developers, and QA teams throughout the development lifecycle to deliver production-ready learning modules.
- Improved visual consistency by contributing to design decisions involving typography, spacing, color, and accessibility standards.
